

I am writing to object to plans to expand the LPFM stations to take priority over translator service. We listen to K-Love on 91.1 daily and very much appreciate it's family oriented programming. We know many people who are blessed by its programming around the community and know that it would be devastating to lose its programming. I think keeping K-LOVE's programming on the air is very much in the public interest and would be missed deeply in the community.

Please do not allow this change to occur.

Thank you,

Rich Browne
